Make your own Leprechaun Trap

Materials needed:
- Paper
- Scissors
- Glue
- Empty box or container
- Any decorations you want to use for leprechaun trap

Directions:

1. **Using paper or other materials you might have, cover container/box you are using for your leprechaun trap. (I am using an empty tissue box)**

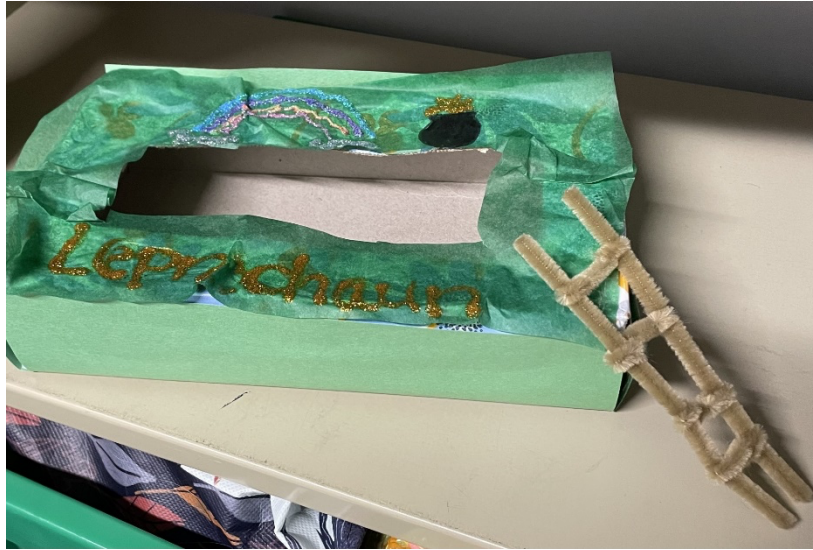

2. **Once your box is covered, decorate it so the leprechaun is encouraged to go in. You can use whatever you have at your house, markers, crayons, paper, glitter, etc.**
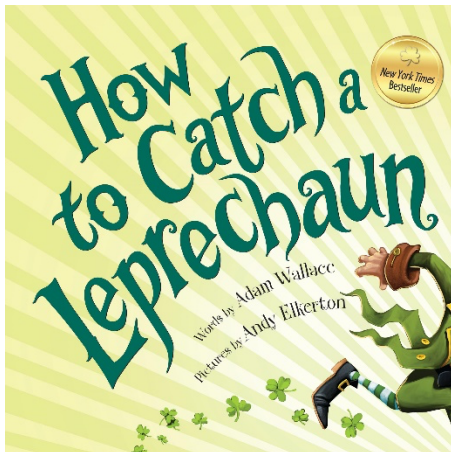

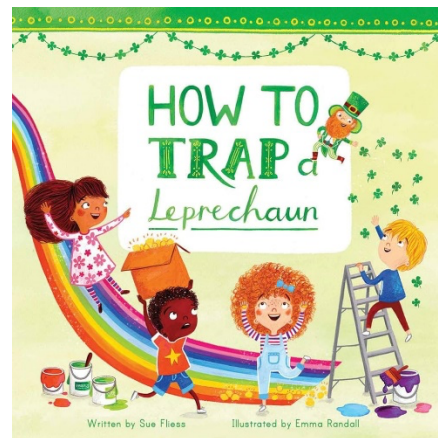

3. **Set out your trap and see if you catch a leprechaun**

4. **If you need ideas, check out these books to help you:**

How to Catch a Leprechaun
